

MASSIVE CLEAN UP FOR CHURCH SERVICE

31st January Saturday, approximately 30 men gathers to do “bayanihan” or “pintakasi” to clean the Calaitan Church located in Km. 8 Calaitan, Agusan Sur. The church was damaged by a 5 to 6 ft of mud slide from the nearby mountain. Mudslide and landslide were triggered by Typhoon Seniang.

The church members mostly men headed by DEL. Siarot and Chris Requilme of NACSEA Relief started early in the morning. They dig out mud inside the church, cleaned the walls and the chairs. During lunch time, the women prepared lunch for everybody.

Before the dawn, they were finished, happily arranged the chairs and the altar again. The following day, Sunday everybody gathers for Divine Service. TRUE LOVE FOR CHURCH

Although the surrounding areas still need to be cleaned of mud, everybody is happy that they could have Divine Service again in the church.

As of this writing, Brgy. Councils and Municipals are coordinating with National Government’s Mines and Geoscience Bureau final analysis about the risk of going bank at the foot of the mountain. (Chris Requilme)
